

5th July 2007

Debbie

Just a quick little Thankyou to you and your team for the service provided on our purchase of the ASSA Workplace Practices Manual.

At the pace we are all traveling at in Business these days, having access to information which is accurate and easy to find is a huge benefit to our Company. We have been able to renew our operating practices with all staff thanks to this comprehensive manual, and continue to update as information becomes available.

I would have no hesitation in recommending anyone in Busines, regardless of size and number of employees, to purchase this package in order to allow their Business to move forward.

Thankyou again, to all your staff.

Regards

Mark Pearson
Manager
