RE: ASSA WORKPLACE PRACTICE MANUAL

Genie Industries is one of the leading manufacturers in the world of Elevating Work Platforms. Since Genie Australia was established with Head Office in Brisbane and branches set up in each state, the company has seen amazing growth. Since my appointment as WH&S Officer and National Trainer day to day occurrences in the workplace were increasing. Having ASSA as a backdrop has allowed any problems to be resolved quickly and efficiently. The majority of senior staff use the manual to help them understand procedures and policies when required. The availability of the web and phone support has been one of biggest benefits.

The ASSA manual allowed Genie to develop an up to date Policy and Procedure manual professionally in their environment.

Yours sincerely

Genie Australia Pty Ltd

Chris Bond  
National Trainer & WH&S Officer
